

A landscape photograph featuring a vineyard in the foreground with rows of green grapevines and wooden posts. The background shows rolling hills under a sky filled with large, grey clouds. Sunbeams (crepuscular rays) are visible breaking through the clouds in the distance. The overall mood is dramatic and atmospheric.

Classico Berardenga

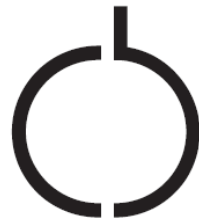

Wines, Wine growers, Territory

THE ASSOCIATION

The Association Classico Berardenga was established in 2015, the will of a group of producers of Chianti Classico in the district of Castelnuovo Berardenga to give voice to its territory and its wines, preserving and enhancing the immense heritage of culture, history and traditions the distinguishes the Land of Berardenga.

Castelnuovo Berardenga is the southernmost commune in the Chianti Classico growing area, located on the borders of the Crete Senesi district.

It is considered the «Most Sienese Chianti Classico» for its closeness to Siena and for its relationship with Siena's prestigious history.

CLASSICO BERARDENGA

VITICOLTORI DI CASTELNUOVO

THE WINE GROWERS

Canonica a Cerreto, Carpineta Fontalpino, Castell'in Villa, Castello di Bossi, Fattoria della Aiola, Fattoria di Corsignano, Fèlsina, La Lama, Lecci e Brocchi, Losi Querciavalle, Oliviera, Podere Le Trosce, Poggio Bonelli, San Felice, Scheggiolla, Tenuta Cappellina, Tenuta di Arceno, Terra di Seta, Tolaini, Villa a Sesta, Villa di Geggiano.

GROWING AREA

The ecological characteristics of this area favour its main activity:
viticulture.

Geological diversity of its soils, with three predominant soil types for
viticulture: macigno del Chianti, galestro, and Pleistocene sands.

Optimal climate for grape-growing, from its geographical position and
environment, largely facing south, at elevations of 250-500 meters.

Presence of a rich ecosystem of high biodiversity, with vineyards
alternating with woods, olive groves, and other crops.

I CRU DI TERRA VOCATA

«I CRU di Terra Vocata» is the title that the Viticoltori di Classico Berardenga bestowed upon the Sangiovese micro-vinifications that are the fruit of the project. The grapes for the micro-vinifications are from each winery's finest vineyards, for 3 successive harvests, starting with that of 2018.
